

THE WAREHOUSEMEN.

The Particulars of Their Scale Adopted Sunday

AND HANDED TO THEIR EMPLOYERS

Yesterday Morning—They Ask an Increase all Around—The Employers have the Matter Under Consideration, and will probably Offer a Modified one in Return.

The scale of wages adopted by the Warehousemen's union No. 4023, A. F. & L., at the meeting at Trades Assembly hall, mentioned exclusively in the Intelligencer yesterday, has been presented to the employers. It is as follows, and is to take effect October 14, when the scale year expires:

Article I. Fifty-nine hours shall constitute a week's work.

Article II. The employers to reserve the right to discharge whom they please for a just and sufficient cause, but we reserve the right to refuse to work with any man who is not, or will not, become a member of our union.

Article III. The minimum price for one-horse driver shall be \$10.75 per week; two-horse driver, \$12 per week; a three-horse driver or driver of transfer wagon, \$15.25, and all drivers who have extra horses to attend to, if they do it on their own time, they shall receive \$1 per week extra for each head, and the extra man at stable receive an advance of 75 cents per week.

Article IV. The minimum price for a porter shall be \$10.25 per week.

Article V. The minimum price for a porter shall be \$11.25 per week, and any porter who is receiving \$10.50 or over, shall receive 75 cents per week advance.

Article VI. All over time shall be paid for at the rate of 30 cent per hour.

This scale to hold good until the first day of April, 1893.

GEORGE MILLER, President.

M. WHEELAN, Secretary.

Last year the lowest paid hustlers received \$9 per week, the men who had been employed six months getting \$9.50. The scale this year means an increase of 75 cents and \$1.25 per week. Last year the lowest wages a porter could get was \$10.50 per week. The lowest wages to be paid this year, according to the scale, means an increase of 75 cents per week over last year.

Drivers of one, two and three horse wagons are to receive an increase of 75 cents per week; all extra horses to be attended to by the driver shall be paid for at the rate of \$1 a week per head. All over time is to be paid for at the rate that prevailed last year.

Last year the employers promised to express no objection to any of their employees forming the union; this year the men reserve the right to refuse to work with any man who refuses to join the union. The hours of work were the same last year.

The employers have the scale under consideration, and will probably submit a modified proposition. One of them said last night that the main reason for the increase last year was the high price of all the necessities of life, and as prices this year were away below the average, the employers were surprised by the demand for an advance.

A LITTLE DIFFICULTY.

Among the Warehousemen at Baer's Sons Settled.

Yesterday the warehousemen employed by S. Baer's Sons struck and walked out. The difficulty grew out of the discharge of two of their men. A member of the firm explained that more men were employed than were needed just now, and it was considered necessary to cut the force down two men. The firm naturally wished to retain the most useful men, and two "hustlers," who are paid \$9.50 a week, were let go, while two porters, who had been paid \$10.50, were given the positions thus vacated. They demanded their former wages for hustler's work, but Mr. Baer told them the idea in giving them the hustlers' positions was to avoid discharging them entirely. If they preferred to quit, he said, he would take the discharged hustlers back.

It was said last night that the men were satisfied with the arrangement when it was explained, and would return to work this morning.

TWO MORE ARRESTED.

John Bistell and His Wife Captured at Monongahela City.

A telegram was received yesterday by Chief of Police Delbrugge from Monongahela City, Pa., saying that the officers there had arrested John Bistell and wife, wanted here on multitudinous charges of stealing. When the search warrants were issued for the two Bistells, to find the shoes stolen from Joseph Hasenauer, John and his wife shipped. Chief Delbrugge made inquiries and concluded that they might go to Monongahela City, and so sent a warning there, with the result above stated. A telegram was sent back asking that the prisoners be held, and information wired here as to whether they will come to Wheeling without a requisition.

WHO IS TYRRELL?

A Man of whom Various Things are Suspected.

Last evening Officer Gaus arrested on a charge of disorder a man who gave his name as James Tyrrell. Tyrrell was sent up as a vag in the middle of September for fifteen days, and got out Saturday morning. It was reported that the man had stolen some shoes at Hasenauer's store, and Officers Lukins and Terrill were hunting him on that charge when Gaus ran him in in the hoodlum wagon. After he was locked up it was seen that he answered the description of one Frank Williams, wanted at Columbus, Ohio, for burglary and larceny. A colored man named Harper, an ex-convict in the Ohio penitentiary, told the authorities there that Williams was in the Wheeling workhouse. Tyrrell was the only man who seemed to fit the case, and the authorities here have sent to the Columbus police for a picture of the man Williams.

A Thrilling Sight.

Mr. A. Appleton is here arranging for the presentation at the Opera House a week from last night and to-night of "Blue Jeans," Joseph Arthur's great play. A feature which made the play an immediate sensational success is the great sawmill scene, which is said to be the most thrilling and realistic scene ever put on a stage. The piece is morally sure to draw here as it has everywhere it has yet been seen.

Arizona Joe Coming.

On Thursday evening the famous Arizona Joe will commence a three night's engagement at the Grand in his new drama, "Black Hawk." Arizona

Joe is a great favorite in Wheeling and this is his first appearance here in three years. He carries a lot of horses, dogs, ponies and a car load of special scenery for the production of his plays, which have made him so popular. He is sure to do a great business.

THE TERMINAL TRAINS.

The New Arrangement Pleases Every Body. Quick Runs Made.

Yesterday was the first day for the running of a passenger train on the Terminal railway between Martin's Ferry and Wheeling and it was well patronized. The train attracted much attention on both sides of the river during the day and some of those who made the round trip were enthusiastic in their praise of the rapid transit. One Ohio gentleman said: "I left home in the morning and had made a trip to Wheeling so quickly that my wife wouldn't believe me when I returned and said I had been over there." The schedule time for a run from one city to the other is twenty minutes, but most of the runs yesterday were made in ten or twelve, and still better time can be made. Trains leave Martin's Ferry at 7, 8, 9, 10, 11, 12:10, 1, 2, 3, 4, 5, 6, 7 and 8, and leave Wheeling at 6:30, 7:30, 8:30, 9:30, 10:30, 11:30, 12:35, 1:30, 2:30, 3:30, 4:30, 5:30, 6:30, 7:30 and 8:30. The buildings are to be of brick, with slate roofs, and will be an architectural ornament to that part of town.

A Specimen Letter.

The peculiar letters the police authorities receive in the course of a year would make a big book. One reached Chief Delbrugge last evening that is a fair specimen. Barring bad spelling and worse chirography, it was as follows:

N. Y. City, Sept.

KIND SIR:

Can you send me any information about a Charles G. Height, a man about 55 years of age.

Send all information possible and oblige

THE SIGNAL TOWERS

On the Terminal System Nearly Completed—The System Explained.

The signal towers on the terminal system are about completed. The one near the Union depot has twenty working levers, operating separate switches; the one at the south end of the tunnel has four, and the tower near Ford's crossing has six levers. At the last named point the Terminal tracks are built up close to those of the B. & O., and it is only the matters of a short time until the cross tracks can be laid.

A man to operate the levers will be stationed in each tower. The system is such that the operator, from his position in the tower, can see in all directions any train that may be coming towards the crossing. By pulling one of his levers a signal is set, notifying trains on the other tracks to hold back until the track is clear. At the same moment a switch near the signal is opened, and should the engineer disregard the danger signal and continue his way, the engine will run off the track. With an operator who understands his business there is no danger of collisions. Mr. C. P. Knox, an operator of long standing, has charge of the tower on the South Side, near Ford's crossing.

GERMAN LUTHERAN

Conference Begins To-day—Oration this Evening—The Programme.

Wheeling has been very fortunate this year in securing conferences and other assemblies of the different churches. Last week the city was full of strangers, and the crowds bid fair to hang on until the middle at least of this week. To-day begins the session of this conference of the Pittsburgh synod of the German Evangelical Lutheran church. The session will open at 7 o'clock this evening in the Zion's Lutheran church, of which Rev. Paul Zeigelmeyer is pastor, with communion services. On this occasion Candidate Schubert, of Pittsburgh, will be ordained to the ministry by Rev. Ivan Dietrich, the president of the conference, who will also deliver the opening address.

To-morrow three meetings will be held: from 9 a. m. to 11:30 a. m.; from 1:30 to 5 p. m., and one commencing at 7 p. m. At the evening meeting Rev. C. Mimer, of Wilkesburg, Pa., will preach a sermon.

Found With His Arm Broken.

Victor Sauvageot, jr., is in bad luck again. Some time ago he fell through a trestle and injured himself, and early yesterday morning he was found at the far end of the Hempfield tunnel with his arm broken. The men who found him took him as far as Thompson's cut, and notified his employer, Mr. Clements, who got a physician for him.

Victor had been to town Sunday and had imbibed a quantity of liquor. It is not known whether he was struck by a train or fell off the bank.

SARA BERNHARDT.

She is No Longer Thin, and While in Australia She Shot Bears and Other Animals.

CHICAGO, Oct. 5.—Madame Sara Bernhardt and her company have arrived here and will begin an engagement in this city to-night. Since her arrival at San Francisco en route from the antipodes she has not only made the trip thus far, but has played every night, "a feat never before accomplished," said Manager Abbe. An interviewer says of her: "She is not the thin Sara that they used to describe, and, while not plump, her statuesque figure is not angular. In every feature and muscle she was alive, and her actions were as expressive as her words. She talked of her trip to Australia and how she shot bears and other wild animals."

Have You a Store?

Do you want to "keep" your goods, or do you want to sell them? You can't find your "ad" in any Wheeling newspaper, neither can anybody else. What do you think people think when they don't see you in the procession?

You are not selling as much as you want to sell and ought to sell, and you know it. Buyers think you are "not in it." Why don't you get in it and handle some more checks.
